I’ve always loved December

Lene Johnsen S-Jensen 11/25

People putting up the Christmas lights
Brightens up the dark December nights
We drive an extra mile to watch them shine
Even though it’s cold, you keep me warm
Bet, I can resist a winter storm
My hand in yours, so lucky you are mine
And if there’s lots of snow
The park is where we’ll go
sleigh riding with the greatest view
I’ve always loved December, it’s true
But the beauty of it grows with you

Sharing our traditions, new and old
Loving when “A Christmas Carol’s” told
We’re watching magic movies on repeat
Singing songs that everybody knows
And we have no doubt how “Love Actually” goes
We send a smile to everyone we meet
We snuggle up inside
Sleep by the fireside
This is by far the greatest view
I’ve always loved December, it’s true
But the beauty of it grows with you

You bring Joy
Joy to my heart
You've been bringing it from the start
This December
everything feels new
I know, what's changed, oh, yes I do
I know that it is you

We are baking cookies with our friends
Really wishing that it never ends
The peaceful holiday is very near
High up in the sky the Christmas star
families that gather from a far
this is my favourite time of all the year
Come on now, let us go
and find a mistletoe:
Be my forever kissing view
I've always loved December, it's true
But the beauty of it grows
Yes, the beauty of it grows
The beauty of it grows with you.
